

OMG MEETS HUSTLABALL – The Return! 22.3.2014 – Vienna

Hard ... Harder HUSTLABALL! On March 22nd OMG presents its legendary cooperation with HUSTLABALL Berlin - the original in Europe - for the second time! The ball is special-guest of the evening and will exclusively host a dedicated area in the club. OMG MEETS HUSTLABALL will take place in Chaya Fuera Club (Vienna). Main-DJ-Star: Spencer Reed, well known through international top events like HUSTLABALL, Hunkhunt and Propaganda as well as former XXX-superstar. His comment: „Get your f** butts up and come to Sincity Vienna!“**

The HUSTLA atmosphere – consisting of groovy house-music combined with wild sex-appeal as if there was no tomorrow – is one of a kind in Europe. HUSTLABALL Berlin has been existing since 2002 and attracts hedonists, daredevils, partypeople and clubber from the international scene. And precisely these ones will soon raise the roof of the Chaya Fuera club in Vienna (tickets available at the door – no preselling).

For the very first time DJ-star Spencer Reed [HUSTLABALL Berlin, Hunkhunt, Propaganda] is going to come to Vienna. As advocate of the deep & hardstyle, Spencer sticks to his credo: „If its deep, dark and dirty, Spencer loves it“ (and this holds true for all aspects of his life!). Furthermore: Residents Tim Anderson and Ben Foster.

Within the restroom-area adult guests will be delighted by a XXX-surprise. At the entrance area the MEET A XXX-STAR special awaits all clubbers. And the LOVE ZONE - hosted by HUSTLABALL – will be part of the production more than ever. Due to obvious reasons the overall rule is: No Partypics! [What happens at OMG stays at OMG].

On October 24th HUSTLABALL will be celebrating its 12-year anniversary in Berlin, as usual in the course of the HUSTLABALL-Circuit-Party-Weekend (www.hustlaball.de). OMG is drawing four of the highly requested tickets on March 22nd in Vienna.

Look forward to an extreme cooperation of OMG with the legendary HUSTLABALL Berlin. Harder and wilder than ever before!

Ready to hustle?
